Dolly Jack

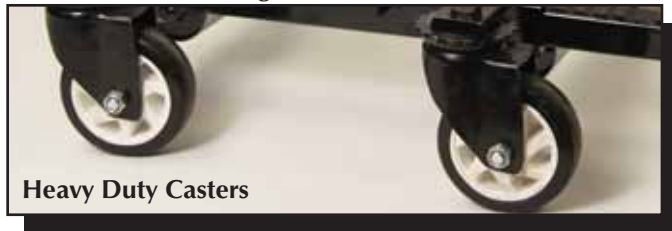

BLACK JACK 21

Automotive Positioning System

The BlackJack21 is a dolly jack positioning system used to move locked vehicles away from curbs, or to assist in the alignment of disabled autos to rollback beds or conventional wreckers. They are also used extensively in the automotive body and repair industry. Their low profile enables them to be positioned under wheels even with flattened tires. Simply slide the Blackjack21 so that it cradles the tire and pump the foot pedal. The mechanical jack rack bar will push the rollers together, hence lifting the tire off the ground. One or two people can then push the vehicle in any direction with ease. (A minimum of two BlackJack21's must be used either installed on the front tires or the rear.) Our dolly jack comes with four heavy duty fully swiveling casters. You will be amazed at how little effort it takes to slide the vehicle on a flat surface. **Never install or use Blackjack21's on an inclined plane, hill or sloped surface unless the vehicle has been anchored. The vehicle could roll away causing injury or death.** Each Blackjack21 has a maximum capacity (working load limit) of 1,550 lbs., or 6,200 lbs. when used in a set of four (4). They will function with most wheels ranging from 13" through 16" in diameter and tires up to 13" wide.

Part No. 21 Weight - 47 lbs ea.

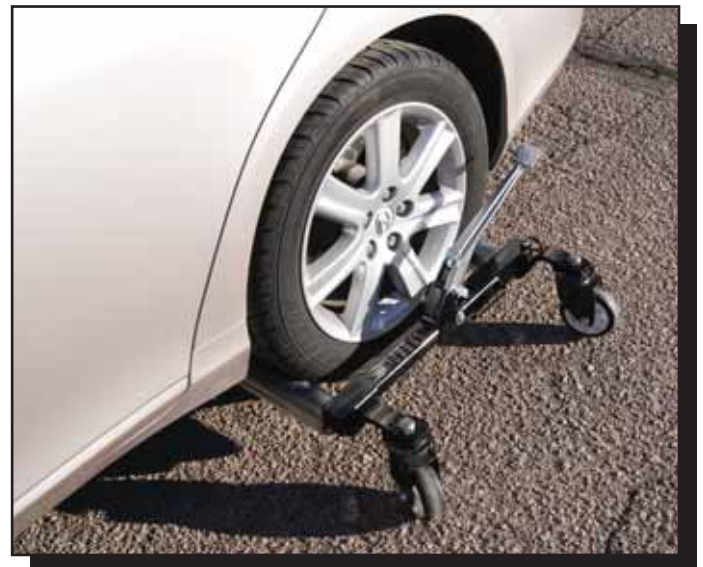

Heavy Duty Casters

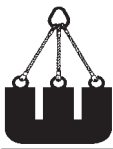

- * Heavy Duty Cast Steel Foot Pedal
- * Mechanical Jack Rack Bar
- * No Heavy Hydraulic Cylinder
- * No Leaking Oil Mess
- * Temperature Has No Affect On It's Operation
- * Premium Heavy Duty Swivel Casters
- * **Black Powder Coat Coordinates With Most Trucks And The Non-Conspicuous Color Deters Theft**

WARNING

- * Failure to read, understand and follow these instructions may cause death or serious injury.
- * Read and understand these instructions before using Dolly Jacks.
- * Determine that the weight of the vehicle is within the capacity (working load limit) of the Dolly Jack.
- * Never exceed the capacity (working load limit) of the Dolly Jack.
- * Inspect the Dolly Jack for damage prior to each use.
- * Damaged Dolly Jacks shall not be used.
- * Never install the Dolly Jack on an inclined plane, hill or slope unless the vehicle has been anchored. The vehicle could roll away causing injury or death.
- * Do not drive the vehicle while the Dolly Jacks are installed.
- * Lubricate the Dolly Jack per the instruction manual.
- * Do not exceed the maximum tire width of 13".
- * Do not shock load the Dolly Jack by dropping it, dropping a vehicle on it or jumping it off of curbs etc. Broken frames and casters will result.
- * Do not over-pump the foot pedal. A broken pedal will result.
- * Do not confuse Dolly Jacks with tow dollies. Dolly Jacks are not for towing but for positioning.

Tools of the Trade

Scotch Blocks

Heavy duty blocks made from 1/4" plate steel with 4' of chain attached for anchoring. The serrated edge "digs-in" for better grip. Sold as each piece.

Part#	Dimensions	Chain Size	Weight
292875	10"W x 12"L x 5"H	3/8"	20 lbs. ea.

Wheel Chocks

These are not Scotch Blocks and should not be used for winching.

These rubber wheel chocks have fluted design, which causes downward pressure to lock chock into place. Recessed eyebolt in rear. Dimensions are 7" wide, 7 1/2" high, 9 1/4" deep. Sold as each piece.

Part# 292874
Hollow Bottom
10 1/4 lbs.

Telescoping Rigging and Retrieval Tool

PART #55171
WEIGHT- 1.5 lbs.

This unique telescoping pole is made of aluminum and locks into position. It has a retrieval hook made of hi-tech poly. Collapsed length is 3 1/2 ft. Extends to 8 ft.

Carrier Skates

BlackMagic®
PART #Skate
WEIGHT- 1.8 lbs.

These new skates are made to make loading of damaged vehicles easier. The wheel can be positioned onto the Blackmagic skate and the vehicle can be skidded and slid onto the carrier deck. We use a special proprietary HDPE material for toughness and strength. Sold as each piece.

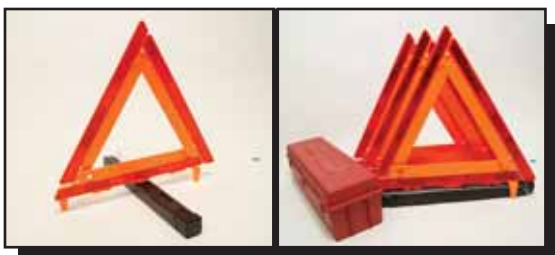

Grizzly Bars

This multi-purpose tool is great for lifting, prying and moving heavy objects when leverage is needed. 3" blade, 55" handle

Part# 64306 - Weight - 12.5 lbs.

Warning Triangle Kit

Part# 247190 **Weight - 10.5 lbs.**

Warning triangle kit consists of three triangles in plastic carrying case. Placement instructions permanently printed on case & triangle. Set up requires no tools. Meets or exceeds all applicable D.O.T. standard FMVSS125 and all state and legal requirements.

Tools of the Trade

Fire Extinguisher

We offer the three most popular sizes of fire extinguishers. Meets or exceeds ANSI/UL 299 and 711. Re-chargeable.

Note: Items cannot be shipped by UPS.

PART #	DESCRIPTION	VEHICLE BRACKET	WEIGHT
250FEI	2 1/2 pound	Yes - Metal	6 lbs.
251FEI	5 pound	Yes - Metal	9.5 lbs.
252FEI	10 pound	No	19 lbs.

Stretch Wrap

Part# 25011009 - Weight - 35 lbs.

This high performance film is an inexpensive alternative to banding or tape. Useful in securing loose parts on towed vehicles. 80 gauge 18" wide x 1,500' long. 4 rolls per case. Hand dispenser sold as part# 800

Wire Rope Lube

Part # - 16302
Weight - 1.2 lbs.

A good quality cable lube in aerosol form.

Safety Vests ANSI Class 3

100% polyester knit vest with pockets. Retro-reflective trim. Labeled to conform with ANSI/ISEA 107-2004. Lime green in color. Heavy duty, made to withstand 50 washings. Zippered closure.

PART #	SIZE	COLOR	WEIGHT
14086	XL	Lime	.4 lbs.
14087	2XL	Lime	.4 lbs.
14088	3XL	Lime	.5 lbs.
14089	4XL	Lime	.6 lbs.

Hi-Vis Rainsuit

3 piece (jacket, detachable hood and bib pants) Hi-Vis lime green rain suit with reflective tape on chest, arms and legs. Jacket has ventilated cape back and underarms. Bib style pants have suspenders, storm-fly front with zipper and snap buttons. Specify chest size.

L(42-44) XL(46-48) 2XL (50-52)
3XL (54-56)

Part No. HV353G - Weight 3.3 lbs.

Cable Cutter

This precision built hand tool will cut small cables and wire rope up through 3/16". Vinyl coated handles.

PART #300007
WEIGHT - .75 lbs.

Cable Cutter

This Impact type cutter will cut through 3/4" wire rope. Replaceable blades.

Part#	Size	Weight	Type
00001	3/4"	7 lbs.	Impact

Tools of the Trade

Collapsible Shovel by Remco

One piece solid polypropylene which collapses into a 24" package able to be stored in tool boxes. 36" in open position. 24" in closed position.

PART# 6880EBO Weight - 2.0 lbs.

Trash Pails

These trash and debris cans are made in the USA of quality galvanized steel with a locking lid. Available in two sizes.

PART#	WEIGHT
1104, 4 gal.	2.9 lbs ea

Push Brooms and Telescoping Handle by Laitner

PART #	DESCRIPTION	WEIGHT
304	3" stiff synthetic bristles set into a hard poly block. 18" broom head. 6 per case	9.5 lbs. (case)
305	Same but 24" broom head. 6 per case	13 lbs. (case)
517	Telescoping handle adjusts from 33" - 60" industrial poly	.6 lbs.

First Aid Kits

Compact kit for work environments with up to 10 people. Contents exceed ANSI Z308.1-1998 model #10, 8" x 5" x 3"

PART #10EP
WEIGHT - 1.0 lbs.

MAGIC LIFT ALUMINUM JACK

- 3-3/4 inch low pickup height for easy access to low profile performance
- Innovative design of Magic Lift, U.S. Patent No.5,755,099 offers a quick lift for professional performance
- 48 inch aluminum handle for strength when pumping
- A built-in by-pass device protects hydraulic system from over pumping damage, U.S. Patent No.5,946,912
- Side frame handles allow for easy lift and carry

All Aluminum Structure

Anti-slip release handle ,
U.S. Patent No.7,036,797

Breather plug assembly,
U.S. Patent No.6,318,401

26020
2 Ton Capacity
